

MOTION FOR PRELIMINARY INJUNCTION

Meridian Food Services v. City of Riverton
Case No. RV-CV-2026-00611. Filed February 24, 2026.

Meridian asks the court to prevent Riverton from withholding \$214,600 under shelter meal contract CTR-2026-033. The city says January invoices included 3,120 breakfasts that delivery logs do not support. Meridian says the meals were prepared and offered at a temporary kitchen during a two-day closure.

The company argues that immediate withholding would prevent it from meeting March payroll for 46 kitchen and delivery employees.

ARGUMENT

Meridian contends that the contract defines a delivered meal as one made available at an approved service location. It cites a January 12 email in which Human Services supervisor Dana Wu approved the temporary kitchen at 18 Harbor Avenue.

The city responds that residents were not transported to Harbor Avenue and that only 406 meals were collected there. Its opposition attaches shelter sign-in sheets and a declaration from commissioner Andre Cole.

Meridian requests release of the disputed payment into escrow pending arbitration. The company also seeks costs and any further relief the court considers just. A hearing is scheduled for March 6 before Judge Naomi Vega.
